Stop Worrying. Start Seeing.

eyeSpy247F+

## Excellent Price-Performance...

The EyeSpy247F+ is a high quality, easy-to-use indoor IP Camera. Unlike a Webcam you don't need to connect it to a PC to function or require any special viewing software and is Windows, Mac and Linux friendly.

Despite its compact size, it features two-way audio capability and excellent video quality with VGA resolution at full 30 frames-per-second, MPEG4 and M-JPEG compression, and video latency of just 0.2 second or less.

It supports both wired and wireless connection but unlike most other IP cameras, there's no complicated or fiddly DDNS or other settings to worry about. The unique auto-configuration system built into the camera will help you get it set up for remote viewing from a PC or mobile with just one click!

## Key Features

- One click auto-configuration with Free online services at [eyespy247.com](http://eyespy247.com)
- No DDNS, IP address or port forwarding set up needed
- VGA resolution (640 x 480) at 30 frames-per-second
- MPEG-4 & M-JPEG dual video streaming
- Mobile phone 3GPP Live video
- 802.11g wireless and wired 10/100 Base-T Ethernet
- Multi-system support (Windows, Mac and Linux)
- Privacy button
- Motion detection & event alerts
- Low light viewing at 0.5 LUX

What's more, the camera has **Exclusive** built-in access to our online platform making it easy to view Live from anywhere plus extensive **Free** services including automated monitoring, video recording, email/SMS intruder alerts, and more.

Now it's easier and more affordable than ever to keep an eye on what's important to you, no matter where you are. Whether it's watching over your home or business, checking when your kids are back from school or looking in on elderly relatives EyeSpy247's complete solution of Internet camera and web based monitoring platform will keep you informed when it matters.
